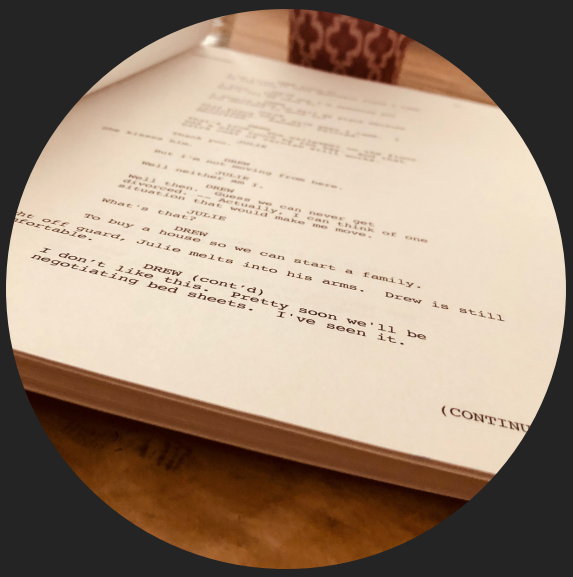
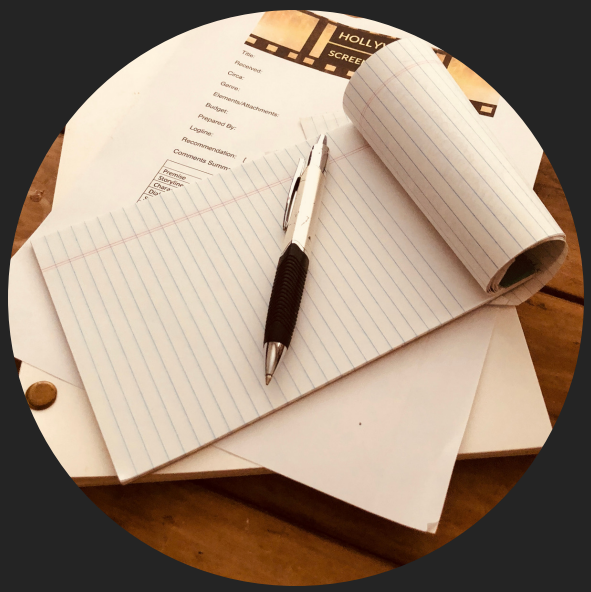
# WHAT PEOPLE ARE SAYING ABOUT THE HOLLYWOOD GATEKEEPERS SCREENREADER COURSE



.....the challenge for me as the Executive Producer was how to guide the writers during the script development phase... I feel much more empowered using the tools given to give feedback and be a more effective leader in our next project!
MONICA LAWSON

I just finished my MFA in English and Creative Writing.... I feel like I have a better grasp of plotting in the one hour lesson and followup analytical exercises than I did in all of my academic courses. I'm loving this course!
CHAZ JACKSON



You know those big questions, like, if you could have lunch with anyone, who would it be and people say things like Einstein, Mark Twain and Oprah? Well, lately, I'd have to say Screenreaders.
